If other than patient, legal relationship: _____ Witness _____

¹If mental health information covered by the Lanterman-Petris-Short Act is requested to be released to a third party by the patient, the Physician, licensed psychologist, social worker with a master's degree in social work, or marriage and family therapist, who is in charge of the patient must approve the release. If the release is not approved, the reasons therefore should be documented. The patient could most likely legally obtain a copy of the record him/herself and then provide the records to the third party, however.

²If any of the HIPAA recognized exceptions to this statement applies, then this statement must be changed to describe the consequences to the individual of a refusal to sign the authorization when that covered entity can condition treatment, health plan enrolment, or benefit eligibility on the failure to obtain such authorization. A covered entity is permitted to condition treatment, health plan enrolment or benefit eligibility on the provision of an authorization as follows: (i) to conduct research-related treatment, (ii) to obtain information in connection with a healthy plan's eligibility or enrolment determinations relating to the individual of for its underwriting or risk rating determinations, or (iii) to create health information to provide to a third party or for disclosure of the health information to such third party. Under no circumstances, however, may an individual be required to authorize the disclosure of psychotherapy notes.

³Under HIPAA, the individual must be provided with a copy of the authorization when it has been requested by a covered entity for its own uses and disclosures.
